OUR SCHOOLS.

few moinths and already the Arizon management has received more public my than it ever had in all its collect-I'VAL BUILD

on Arizona and he as heaving the Arirotes papers full of interesting iftcommation about his infrereity and what it can do

In New Mexico the Boowell Mills tary institute, the College of Agriculture and the Normal university are also doing some very effective advertosing along the same lines, and the results are shown in the increased attendance at these mulitutions each

and Women within the territory for tent one. The press of the territors can do good work along these line and the educators should give considerable attention to the publicity end of their various institutions.

In Arizona it has been found that judicious advertising, most of which is gratis to the schools, has a whole some effect in increasing attendance among the citizens. The idea should be more generally adopted and the schools and colleges of New Mexico should take a more prominent part in the publicity work which is the surest and quickest was of building them up and inducing co-operation on the part of faculty, students and parents.

THAT ARMY SPY.

The war department is worried Miss Clara A. fiyer, whoever she may be, has declared that Private Petr. an artifleryman, is an Austrian noble man in disgrees and a spy in our noble army.

Petr himself told her. She says he exercise. is trying to find out how a certain explosive is made and that he intends

Now if Private Petr was representing some first-class military powor his machinations might be serious But even it he collected a full sumply of our military secrets-providing we have any and took the whole shebang in bread daylight to Austria we should not be seriously perturbed.

It is highly probable, however, that when the matter is sifted down; similis put one over on Doc Cookcertain recruiting officer named Captain Watson and the war department. As a private in the const arrittery

isning braces trappings than he is about making powerful explosive Even granting that he is educated sufficiently in the lore of explosive advocated by Mr. Balfour in the the job of ferreting out secret forms, the "short and ngly word." las a lugger task than he is likely ever to: accomplish.

up, groaming down the guns and per- after arriving in Clavic was despond orming its other military duties and ent from other causes. Climflamming fair and credulous doubtless have little time to secrete congress has really made up its mind any military information that might to do so the matter is anunimous. se calculated to add the Austrian dy ! nasti in waging a successful caux-to wax possimistic over statehood. Samething might happen, even yet.

Private Patr, even if he is no spy, is too much of a romancer to be The readers of this paper will be merely a private in the ranks. He pleased to learn that there is at least ought to be a war correspondent for One dreaded disease that science has the Hearst syndicate or private soo, best able to cure in all its stages, and retary to Mr. Hobson Such talent is the only positive cure now known needs proper yest.
